ABOUT US

Haken Systems is a recognized international brand in innovation and product development providing high quality Fashion Electronic Door Lock, Wirless Video Door Phone systems, Electronic bed fittings and much more and offering a variety of solutions for both consumers and dealers.

Leader in Innovation and Product Development

Throughout our history, Haken Systems has consistently demonstrated its ability to provide solutions to consumers' need for products that express their lifestyle. Haken has introduced many innovative products to the marketplace in the past years including the Spanish Bed fittings, Smart Electronic Door Locks with Anti-Tarnish finish, the Powerbolt Keyless Home Access System.
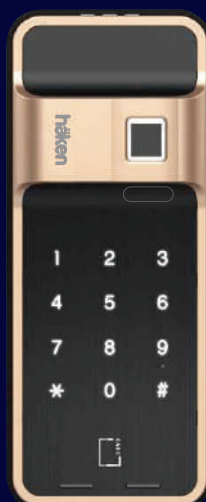

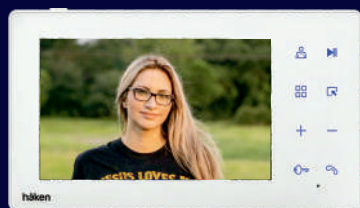

High Quality Fashion Doorware

Quality and security are an integral part of every product. Knowing that all Haken products will function properly and provide the added protection and security you expect, allows you to choose from a number of stylish products with confidence.

Variety of Solutions

At Haken Systems, we know that one product line will not fit every consumers' needs. That's why we offer several different styles of Video door phones & Smart Door Locks with varying features and price points. Every line features a selection of Decorator Finishes.

For those who desire only the best, Products offered by Haken is our finest line of automation systems.

If you are looking for convenience, our Electronic Keyless Home Access System & digital furniture products are the perfect solution. These products offer the latest in electronic technology and permit home access with a personalized security code or remote access. Now your kids or even service personnel can access your home without the hassle of duplicate keys. So whether you're looking for low price, unique style, wide selection or simple convenience, Haken Systems has the product to meet your needs and complement your lifestyle.

5. TWO30+ INVISIBLE RFID LOCK (for sliding overlapping doors)

RFID CARD

- RFID Card Access (upto 50)
- Low Battery Indicator
- Automatic Locking Function
- No Locking if Battery Down

(For Glass overlapping doors)
Glass Kit Extra

(For Wooden overlapping doors)

■ For maximum two overlapping doors (as shown below in the image)

Door Thicknes 25 mm
<--Close   Open-->
(Rear Door)
5 mm
25 + 5 = 30 mm

Door Thicknes 25 mm
<--Open   Close-->
(Front Door)

Door Thicknes 25 mm
<--Close   Open-->
(Rear Door)

Door Thicknes 25 mm
<--Open   Close-->
(Front Door)

■ For Installation of this lock, need to calculate the thickness of the door + distance between both the doors in mm (total should not exceed 30 mm)

■ This lock has inbuilt packing for supporting upto 25mm thick door, for installing in:
  - Door thickness < 25 mm, need to screw an external (wooden) packing between the rear door & the lock to make it uptill 25 mm.
  - Door thickness > 25 mm, need to conceal the lock inside the rear door to make it uptill 25 mm.

ACCESSORIES (suitable for all PS locks)

3D Latch
3d Adjustable Stainless Steel
Latch for swing & sliding Doors
(included in the lockset)

RFID Card
The Range is approx. 30 mm cross wood or glass
Use upto 50 different cards per lock.
(2 RFID Cards included in the lockset)

External Antenna
used whenever the distance from the key is greater than 25 mm or if the lock is fixed onto a real panel.
Cable: 1.5m

Battery
When the battery starts to run out, the lock will no longer lock and a continuous tone will sound for 15 seconds.
(included in the lockset)

Glass Set
This kit has an additional adhesive tape, which makes you install the lock on the glass as well.

Self Push Latch
It helps give a self pull open to the door when you unlock the door with RFID, Bluetooth or Keypad.
